Review on ECS 2011

Every second year the European Coatings SHOW is the meeting place of the global coatings and construction industries. This year about 26,000 trade visitors came to Nuremberg in order to learn about the products and services of 886 exhibitors from 45 countries. ECS 2011 surpassed all records of previous years, with a net display area of over 30,000 square meters.

Of course, SE Tylose GmbH & Co. KG was also represented with a stand at this most important exhibition for construction chemicals, high-quality paints and coatings, sealants and adhesives.

From the perspective of SE Tylose GmbH & Co. KG the European Coatings SHOW 2011 was a great success and we look forward to welcoming you during the next show, which will take place at the Exhibition Centre in Nuremberg from 19th to 21st March 2013.

SE Tylose belongs to the ShinEtsu group, located in Japan, and is one of the leading producers of MC and HEC worldwide. Our Tylose® brand and product range is recognised globally as leading technology, offering dedicated solutions to the various industries served.
